# INTRODUCTION

---

Lycan Finance is the token of the people. With a decentralized blockchain structure, Lycan token provides complete transparency and accountability to its stakeholders

By Simply holding Lycan token in your wallet will earn BUSD. Lycan token is going to be an open-source, totally decentralized finance platform that has been entirely originated, driven, and developed by the community. The more Lycan token you own, the more BUSD you'll get. Investors will be paid in BUSD for every transaction

This token technology has been in development since December 2021 and provides the ideal opportunity of growth for all our investors that are seeking benchmark ROI from their crypto portfolio.

Lycan token has a very dedicated and expert team of core developers that will take this project to new pinnacles in the crypto space. Having a specialist coding team, a marketing team, an operations team and the lead developers, that will collectively transform this exciting project to a proper organizational setup with the aims of providing our stakeholders the most efficient return on their investments and creating portfolio value.

# CORE VALUES

---

## Having the Investors trust

Lycan Finance is the token for the people and the masses. The underlying philosophy at Lycan is to create shareholder value along with providing a decentralized successful project archetype that will eventually be transformed into an organization of crypto smart chain. This project will generate automated ergonomical returns in the form of profits for investors and create a smart eco system of burn, distribute and establishing a stable, rewarding crypto portfolio.

## Future of Lycan Finance

Lycan Finance will be the next decentralized token technology that will be a safe crypto haven for all segments of shareholders. The core team will drive the project vision of making this **the must have** alt-coin in 2022.

# MISSION & VISION

---

Our main goal is to deliver full transparency to the community and investors,

Lycan finance will be fully community owned project and for that Ownership will be renounced When Lycan Finance will hit 7 Million Marketcap.

There is no project in the crypto space giving Passive income with renounced Ownership. We have big goals for the project and for our investors, We want to hit the Market with our best utilities and remain among the Top.

**Anti Whale**

**Audits & KYC**

**Initial Burn**

**Maximum Team  
Engagement**
